Final-year Computer Science Engineering student at FST Settat, focused on backend and full-stack development with Java and Spring Boot: secure REST APIs (Spring Security, JWT, RBAC), relational data modeling, real-time features with WebSockets/STOMP, and Docker. Looking for an end-of-studies internship (PFE).

Skills

Backend
Spring Boot, Spring Security, Spring Data JPA, Hibernate, JWT, REST, WebSockets/STOMP

Frontend & Mobile
Angular, React, Flutter, HTML/CSS, Tailwind CSS

Languages
Java, C, SQL, JavaScript, Dart

Databases
PostgreSQL, Oracle, SQL Server, MongoDB, Redis

DevOps
Docker, Docker Compose, Linux, Bash, Git, Vercel

AI & ML
PyTorch, TensorFlow, VAE, LLM integration, Ollama, Hugging Face

Methods & Tools
OOP, UML, LaTeX, IntelliJ, Postman

Languages

Arabic
Native

French
Fluent (C1)

English
Professional (B2)

Experience

Institut Pasteur du Maroc — Casablanca
Full-Stack Developer Intern — Summer 2025

- Built a payment collection platform that replaced a fully manual process (email, phone calls, in-person visits).
- Modeled the domain in UML (class and sequence diagrams) and designed the PostgreSQL schema.
- Implemented the Clients, Invoices, Collection Attempts and Dashboard modules in Spring Boot, with Admin/Agent RBAC via Spring Security.
- Designed and documented the REST API, tested with Postman.

Projects

DeepDame
Real-time multiplayer checkers platform.

- Game sync over WebSockets/STOMP, random matchmaking, private invitations and a local AI opponent via Ollama.
- Load-tested with up to 3,000 concurrent users.

Stack: Spring Boot, WebSockets/STOMP, Redis, MongoDB, Flutter, Docker

Narrative
Full-stack blogging platform with real-time features.

- Readers save articles to private collections and message each other in real time.
- Authors draft posts, group them into series and moderate comments.

Stack: Spring Boot, JWT, Oracle, Redis, WebSocket, Docker, Angular 21, Tailwind CSS v4

EcoTrack
Carbon footprint tracker.

- Secure REST backend with automatic CO2 emission calculation.
- Gamification (badges) and dynamic statistics dashboards.

Stack: Spring Boot, JWT, PostgreSQL, Docker, React, Recharts, Tailwind CSS

Education

FST Settat — Engineering Degree
Computer Science Engineering — Settat • 2024 - 2027 (expected)

FST Mohammedia — DEUST
Sciences and Technology — Mohammedia • 2021 - 2024

Lycée Othman Ibn Affan — Baccalauréat • Mention Bien
Mathematical Sciences A (French track) — Casablanca • 2021

Activities & Engagement

Club of Development Enthusiasts (CODE), FST Settat — Settat
Secretary General
Coordinated club activities and administration for the student tech community.
